

Pit Racks

For Passenger Cars and Light Trucks

Shown with optional stainless steel turnplates.

Model PN Full Runway Passenger Car and Light Truck Pit Rack

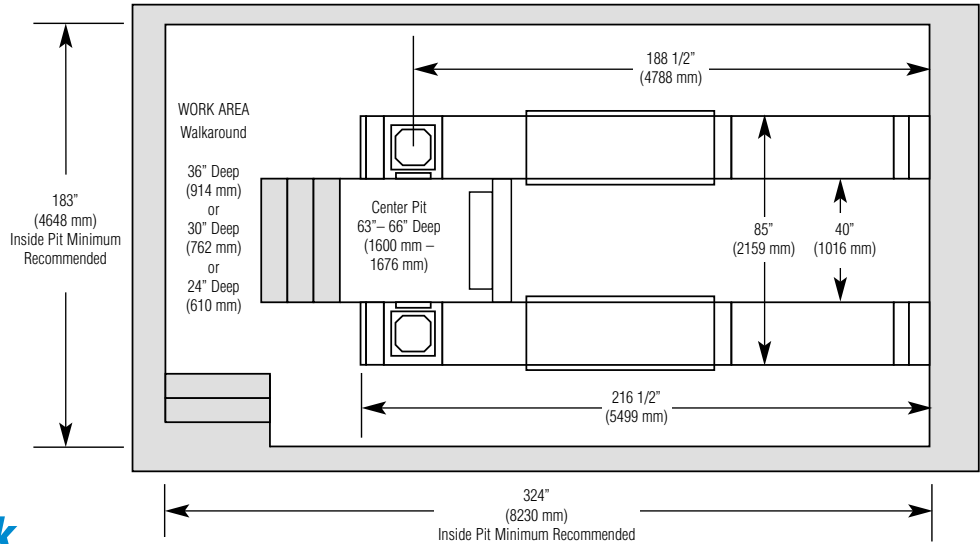

66" deep center pit provides full under-vehicle access.

- Designed for highly efficient four wheel alignment with an unlimited wheelbase capacity at a comfortable work height.
- Ideal for very high volume shops: "walkaround" pit layout saves time spent raising or lowering a lift.
- 212" (5385 mm) steel runways mount to pedestals in a choice of 24" (610 mm), 30" (762 mm) or 36" (914 mm) pit depths.
- 16,000-lb. (7258 kg) capacity and 22 1/2" (572 mm) runway width can handle a wide range of vehicles, including dual-wheel pickups.
- Ideal for shops with low ceiling height.
- Four-wheel alignment wheelbase is 158".
- Clip-on work steps provide easy access to vehicle.
- Ideal for use with digital imaging alignment sensors.
